

2015 SUPPLEMENT TO THE University Library Achievement Record

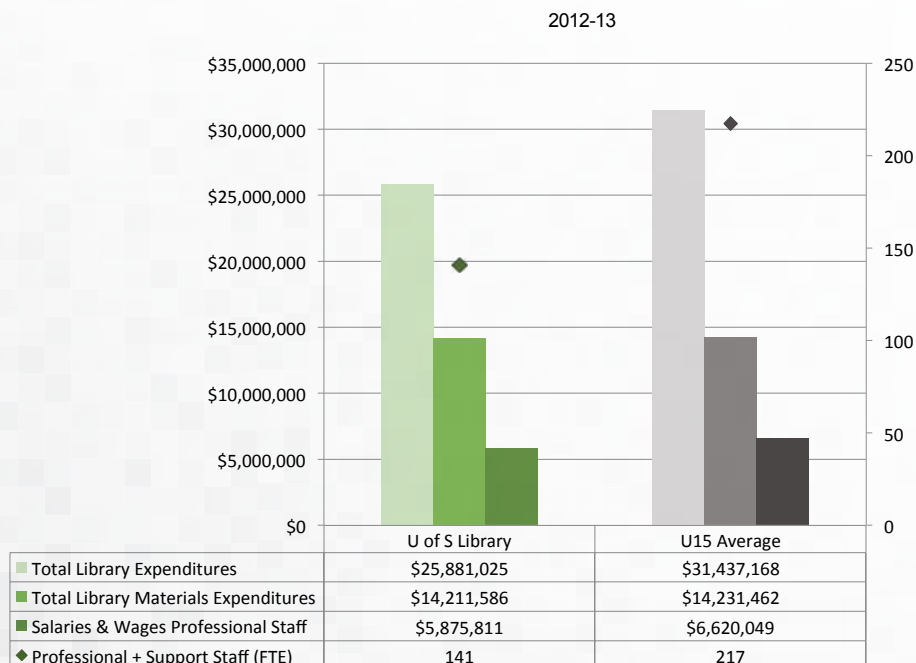

Prepared by Carisa Polischuk, Assessment Analyst **2014**

University Library National Ranking, Association of Research Libraries (ARL)

ARL is comprised of 125 major research libraries in Canada and the US. On an annual basis, statistics are collected through this body for publication in the following described areas: collections, expenditures, staffing and service activities. Accordingly, members receive an annual ranking based on the Library Investment Index (calculated based on four variables such as total library expenditures). This graph depicts the University Library's ARL ranking in 2011-12 and 2012-13 among fourteen U15 peer institutions.

Library Investment Index , Association of Research Libraries (ARL)

The ARL Library Investment Index ranking is calculated based on four variables: 1) Total Library Expenditures, 2) Total Library Materials Expenditures, 3) Salaries & Wages for Professional Staff, and 4) Professional + Support Staff (FTE). This graph depicts the statistics for these four variables at the University Library compared to the average of fourteen U15 peer institutions in 2012-13.
