Disclaimer

Prior to reviewing this report, please see the following quote from an ARL published report¹ as the same principles apply for the tables and graphs presented in this report: *“The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.”*

Overview

The [University Library Assessment Program](#) at the University of Saskatchewan (USask) provides a wealth of information to help understand client needs and the overall effectiveness of the library; determine trends and benchmark versus our peers; assess progress toward [strategic commitments](#); and demonstrate library value to the University community.

Aligned with the library’s strategic planning process, the University Library's assessment program has three broad purposes (*quality improvement, quality assurance, and accountability*) and consists of four major components (*library data and statistics, library surveys, key performance indicators and benchmarking, and other assessment related activities*).

On an annual basis, the University Library submits data to the Association of Research Libraries (ARL) along with all other ARL member libraries. This includes data on library collections and expenditures; library salary expenditures; overall library expenditures; library personnel; library use, facilities, and services; and doctor’s degrees, faculty, and enrolment. ARL uses this data to publish annual statistics for a number of indicators, percentages and ratios, and the library investment index.

USask is part of a select group of 15 research-intensive universities in Canada known as the [U15 Group of Canadian Research Universities](#). The annual publication of ARL statistics allows the University Library to track progress over time and benchmark with our U15 peer institutions².

This report represents the University Library’s analysis of ARL Statistics 2018-19³ summarizing the results for USask versus U15 peers and demonstrates our commitment to move beyond submitting annual library statistics to analyzing and using published results to determine trends and benchmark to our U15 peers.

ARL Background⁴

The Association of Research Libraries (ARL) is a non-profit organization consisting of 125 research libraries in the US and Canada consisting of the largest research libraries in North America. This includes 116 university libraries and 9 public, governmental, and non-profit research libraries. Although ARL libraries represent a small subset of libraries in North America, they account for a large portion of academic library resources (e.g. assets, budget, and number of users served).

ARL Member Libraries	University Libraries	Public, Governmental, and Non-profit Research Libraries	Total
US	100	9	109
Canada	16	0	16
Total	116	9	125

ARL Indicators⁵

ARL releases annual statistics as part of a series of publications describing the collections, staffing, expenditures, and service activities of its member libraries. Statistics are available for the following indicators for Canadian ARL libraries including U15 research intensive universities except for Dalhousie and Montreal (not ARL members).

Library Collections and Expenditures

Titles held; volumes in library; electronic books; one-time resource purchases; ongoing resource purchases; collection support; total expenditures for library materials

Library Salary Expenditures

Salaries and wages for professional staff, support staff, and student assistants; total salaries and wages; fringe benefits (\$ and designated %)

Overall Library Expenditures

Total expenditures for library materials; total salaries and wages; other operating expenditures; total library expenditures; expenditures from external sources (bibliographic utilities, consortia/networks, etc.)

Library Personnel

Professional staff; support staff; student assistants; total staff

Library Use, Facilities, and Services

Library presentations to groups; participants in group presentations; reference transactions; initial circulations; full-text article requests; regular searches; federated searches; total items loaned/borrowed; annual gate count

Doctor's Degrees, Faculty, and Enrollment

Doctor's degrees awarded; doctor's degree fields; instructional faculty; total students (full-time); total students (part-time); graduate students (full-time); graduate students (part-time)

⁴ List of ARL Members, Association of Research Libraries, Washington, DC. Retrieved from <https://www.arl.org/list-of-arl-members/>

⁵ Results not shown for the following four ARL indicators due to lack of USask and/or U15 peer data and/or consistency issues with data collected: fringe benefits (designated %); expenditures from external sources (bibliographic utilities, consortia/networks, etc.); regular searches; federated searches

ARL Percentages and Ratios

Using data from the indicators listed on the previous page, ARL calculates and publishes the following percentages and ratios to help provide a picture of ARL university libraries.

- Professional Staff as a percent of Total Staff
- Support Staff as a percent of Total Staff
- Student Assistant Staff as a percent of Total Staff
- Ratio of Professional to Support Staff (excluding Student Assistant Staff)
- Ratio of Items Loaned to Items Borrowed
- Total Library Materials Expenditures as a percent of Total Library Expenditures
- Salary and Wages Expenditures as a percent of Total Library Expenditures
- Other Operating Expenditures as a percent of Total Library Expenditures
- Library Expenditures per Faculty
- Library Expenditures per Full-Time Student
- Library Expenditures per Full-Time Graduate Student
- Library Expenditures per Full-Time User
- Library Expenditures per User
- Library Expenditures per PhD Awarded
- Library Staff per PhD Awarded
- Professional Library Staff per PhD Awarded

ARL Library Investment Index

ARL also releases a ranking based on the Library Investment Index which is calculated based on the following four variables:

- 1) Total Library Expenditures
- 2) Total Library Materials Expenditures
- 3) Salaries & Wages Professional Staff
- 4) Professional + Support Staff (FTE)

Results: ARL Indicators

The following table summarizes the 2018-19 University of Saskatchewan (USask) ARL results compared to 2017-18 (including % change) and to the U15 average (2018-19). The overall USask ranking among U15 peers is also shown for each indicator. The graphs in Appendix A illustrate USask results compared to the U15 average for each ARL indicator from 2014-15 to 2018-19. The graphs in Appendix B show USask results/ranking among U15 peers for 2017-18 and 2018-19 for each ARL indicator.
